**Helping Persons Who Have Vision Loss**

Speaker: Victor A. Arbulu, Managing Director  
Greater Detroit Agency for the Blind and Visually Impaired

We know that loss of vision need not prevent people from leading productive, independent lives.

However, it requires they learn different ways of doing things –  
and it requires different sensitivities from those who live, work, and socialize with them.

This presentation will answer your questions about vision loss and blindness,  
and share ways for you to courteously and safely interact with people who are visually impaired.
